

Felt coasters & placemats

Our felt coasters & placemats are made of virgin merino wool felt, making them not only durable and eco-friendly, but also beautiful.

They're ideal for hot and cold drinks, and the simple profile and soft material are designed to work within the context of your workspace or home.

Item	Felt coasters & placemats
Material	100% merino wool
Thickness	3-5mm
Size	4x4'', or customized
Color	Pantone color
Shapes	Round, hexagon, square, etc.
Processing modes	Die cutting, laser cutting.
Printing option	Silkscreen printing digital printing thermal transfer printing.
Logo option	Laser Scanning, silkscreen, woven label, leather embossed, etc.

Eco-friendly

Our 100% wool felt is also a natural, renewable resource which means it is free of nasty toxic substances. It's a sustainable, biodegradable choice for an eco-friendly home.

Fine and soft

Made of soft merino wool, our drink coasters are gentle to your surfaces and provide a gentle landing spot for your glass or cup. Will not cause damage like marble or stone if accidentally dropped.

Dense and durable

Merino wool felt is unique since it is composed of very fine and soft fibers that are tightly interlocked under intense heat and pressure. The resulting felt is thick, dense and will not dent, tear or break.

Absorbent

Wool also uniquely wicks away condensation. Moisture is absorbed into the wool fibers of the coaster—leaving your furniture safe from harm (and your coaster not stuck to your glass).

Biodegradable

Woolen coaster pads are the NATURAL choice. They are renewable and biodegradable. Wool even has ANTI-BACTERIAL properties due to the natural presence of lanolin.

Care instructions

Fortunately wool is naturally resistant to dirt and stains. Like anything in your home though, it will need to be occasionally cleaned. A good first step would be to try cleaning with a damp cloth. They may also be handwashed in cool water using gentle detergent and then laid flat to dry. These are made from 100% merino wool so the process would be similar to caring for quality wool clothing.
