

## Wool Dryer Balls

Wool dryer balls are always made of 100% New Zealand wool. They will not unravel and will last for years. Their size is optimal for maximum dryer efficiency. They are great for fluffing down feather items such as quilts and jackets. Using wool dryer balls saves your skin from chemicals used in dryer sheets and liquid fabric softeners, and it also saves your dryer from the residue left from these.

Item name	Sizes(diameter)	Net weight
Wool dryer ball	6cm	20-30g
	7cm	40-45g
	8cm	55-60g
	9cm	85-90g
	10cm	105-110g

- \* Try scenting the dryer balls by placing a few drops of essential oil (lavender, lemon, etc) on each ball. This will lightly scent your clothes!
- \* Reduce static further by making sure clothing is not over-dried. Try taking clothes out sooner than you usually do.
- \* 3 pack of Wool Dryer Balls for a small load.
- \* 6 pack of Wool Dryer Balls for a large load.

## HEBEI HUASHENG FELT CO.,LTD

### Material: 100% New Zealand wool
